SpotOn

Online Ordering & Dine-In Ordering

Increase sales, reduce costs, and grow revenue with integrated online ordering from SpotOn

Adapt to Whatever Your Local COVID-19 Restrictions Are and Set Your Business Up to Thrive

- Customers can order dine-in, take-out, or delivery right from your website and our FREE mobile app
- Orders are sent directly to your POS and kitchen for ultimate efficiency
- If you need a new Website, we'll build it for you with no upfront costs

Quit Paying Upwards of 25% Commissions on Delivery Services like Grubhub!

- Keep your hard-earned money—the average ticket price is 18% higher with online ordering and guests visit 67% more often
- Put your staff to work fulfilling take-out orders, curbside pickup, or delivery

Don't Hand Your Customers Over to Delivery Companies!

- Quit letting 3rd party delivery companies STEAL your customers to go frequent your competitors
- Own your own data and build your customer list to keep customers coming back with integrated marketing campaigns

How Dine-In Ordering Works

1. Customer scans barcode at their table

2. Customer orders and pays from their phone without touching a menu or credit card

3. Order is sent directly to POS

Uber Eats
