 SpotOn

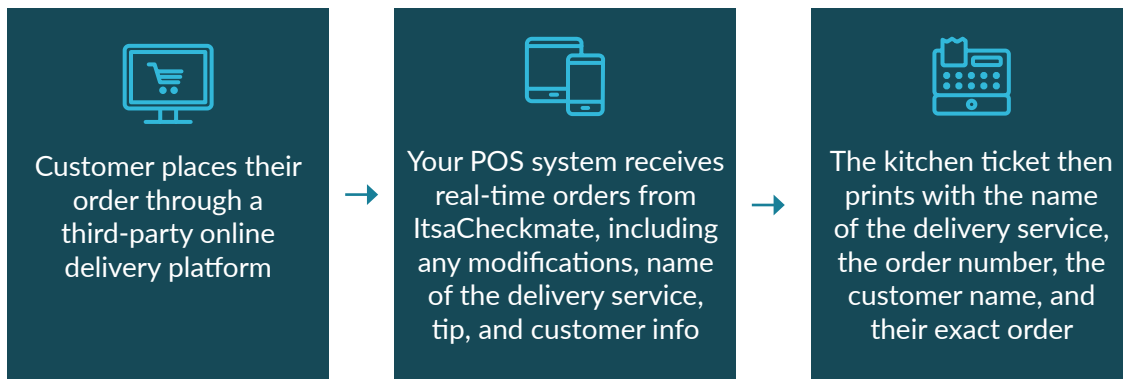

SpotOn Restaurant and ItsaCheckmate

Ditch those third-party delivery tablets with our direct POS integration.

Integrate Third-Party Ordering Apps Directly into Your POS

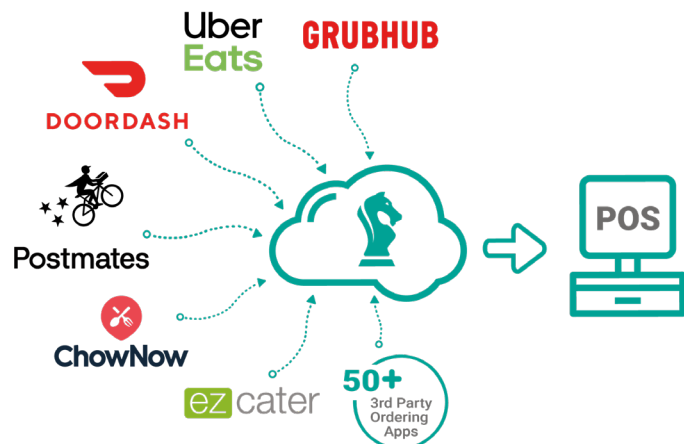

ItsaCheckmate funnels delivery orders from major third-party delivery services like UberEats, Caviar, Grubhub, DoorDash and Postmates, and seamlessly integrates them into your SpotOn Restaurant POS system. That means you can finally ditch those tablets taking up all that counter space. Better yet, it means your team no longer needs to go through the headache of entering order-after-order when they can be better served helping the customers at your business.

How it Works

Features & Benefits

- ✓ Reduces number of tablets needed to offer third-party delivery
- ✓ Eliminates order entry errors
- ✓ Increase revenue potential
- ✓ Saves time and reduces labor costs

Unlock the Potential of Your Restaurant with SpotOn and ItsaCheckmate
